SUMMARY

UX design leader who builds teams while personally designing and shipping impactful products across eCommerce, financial services, and enterprise technology. Brings direct experience taking AI products from strategy to launch and fosters a strong design culture that drives innovation and human centered outcomes.

EXPERIENCE

Zoom — Senior UX Manager / Lead Designer

SEP 2022 – PRESENT

- Led AI experience strategy while personally designing key experiences across Zoom's AI portfolio, including AI Companion, Revenue Accelerator, AI Services, and AI Dev Credits, delivering secure enterprise capabilities for 300M+ daily users.
- Led the design and production build of Zoom AI Services, a critical company priority, from strategy to GA in 8 weeks. Launched Zoom's first unified AI developer platform, helping establish a new revenue channel. Zoom's CTO will personally demo the product at HumanX and Zoomtopia.
- Built and scaled the UX operating model across Zoom Apps, the Developer Ecosystem Platform, and Monetization.
- Founded and scaled the Prism Design System, unifying web, mobile, native, and AI experiences to accelerate delivery across Zoom Workplace.
- Architected and scaled AI agents across workflows, automating validation, insights, and content creation to drive significant efficiency gains across the organization.

Google — UX Manager

OCT 2021 – SEP 2022

- Led a UX team, fostering a culture of trust, collaboration, and continuous learning.
- Advocated for user needs and enabled the Sales organization to help advertisers worldwide achieve their goals and grow their business; 99% of Ads revenue was managed through our intelligent platform.
- Oversaw the highest-engagement charter, serving 60K daily users and generating \$4B in incremental revenue.
- Developed future leaders by providing guidance, inspiration, and mentorship, setting team members up for long-term success.

- Mentored graduate students from diverse disciplines in the Studio Forward Program, cultivating the next generation of UX talent.

Salesforce — Director UX Design

MAR 2021 – OCT 2021

- Managed a team of designers and researchers on designing and building the next generation of enterprise data integration products and the Mulesoft Design System.
- Partnered with cross platform leaders to define strategies and drive outcomes.
- Served as a thought leader and advocate for user-centered design, methodology and tools, creative vision, and digital strategy.
- Directed operations and shaped organizational design for the UX team, reducing costs, fueling growth, and driving professional development.

Charles Schwab — Director UX Design

JUN 2013 – MAR 2021

- Delivered strategic digital initiatives for clients and advisors, creating omni-channel platform experiences serving millions of users and \$6T+ in client assets.
- Managed a high-impact charter spanning transfers and payments, security, Schwab/ TDA integration, digital messaging, and Equity Awards.
- Founded the Everest Design System, driving company-wide efficiency and accelerating delivery of all product and marketing digital experiences.
- Cultivated a design thinking culture to boost innovation and experimentation.

Snapfish — Senior Designer

MAR 2010 – OCT 2012

- Led design initiatives for Snapfish Publisher user experiences, which is a B2B site for designers and application developers.
- Distilled complex broad visions into concrete client-focused, intuitive, and engaging experience to meet user needs for the initial and subsequent launch and continued to add new functionality to help sellers gain exposure and traffic.
- Identified design problems and built a holistic, user-focused design system that is coherent and aesthetically alluring across the main site and co-branded partners.

My Space — Senior Designer

APR 2008 – JUL 2009

- Developed strategies to improve processes and translated business requirements into designs that effectively communicate product functionality and brand identity.
- Lead designer on the music portal design that encouraged users to share playlists and discover new music. Collaborated with Tom Anderson, MySpace founder to translate his visions into designs.
- Revamped help and photo portals, improving real-time access, reducing call volume, and enhancing photo editing and face recognition for better personalization.

Shutterfly — Senior Designer

SEP 2006 – APR 2008

- Created strategic design solutions for marketing campaigns using design principles and user research, and developed a pattern library for the Shutterfly UX style guide to ensure consistency in branding, colors, layout, and development practices.
- Lead designer on digital applications involved in creating a Calendar, Posters, Photo Cards, My Photos, and site search. Redesigned homepage to increase product discovery and attract new members to increase sales.

eBay — Creative Designer

JUL 2004 – SEP 2006

- Collaborated with cross-functional teams to improve usability, oversee production, and design co-branded marketing programs and microsites with eBay partners, including Circuit City, GM, Apple, and others.
 - Designed and developed the 10 cents fixed price promotion, which generated 2.6 million incremental listings in one day. Due to the success of this campaign graphics, this design became a template for future promotions.
-
